

C2 PROPANE

Propane is the world's most popular clean-burning alternative fuel. In North America we have an abundant domestic supply, and it's about 40% less expensive than a gallon of diesel on a btu basis. That's why Thomas Built Buses is pleased to offer a propane-fueled Saf-T-Liner® C2 bus as part of our robust alternative-powered product line-up. Setting up the propane infrastructure is an easy and relatively low-cost proposition. So you can help the environment while providing safe, reliable transportation. In fact, the C2 Propane provides outstanding maneuverability, state-of-the-art driver ergonomics and the most visibility among all Type C buses. So it just makes sense to consider the propane-fueled Saf-T-Liner C2 bus for your fleet.
